

CLEANING AND MAINTENANCE ADVICE

DECORATIVE PANELS AND LAMINATES

No special care is required for the cleaning and maintenance of Innovus[®] products.

We recommend cleaning with a soft cloth (dry or damp) and surfactant-based cleaners without abrasive components (cleaning liquids and soaps) or organic solvents, such as alcohol or acetone (nail varnish remover).

We do not recommend the use of degreasing agents, strong acids or bleach, such as furniture polish or wax, as they tend to build up in textured surfaces and form a layer of grease.

- + Ensure adequate ventilation while using volatile substances
- + Use only soft, non-abrasive cloths or sponges for cleaning
- + Always dry the surface
- + Although liquids cannot penetrate the product, dirt or stains should be cleaned immediately

DO NOT USE

- + Abrasive substances or paint strippers
- + Polishing products, brighteners, bleaching agents
- + Bleaches, strong acids or their salts
- + Decalcifying products, drain cleaners, cleaning products for ovens or for silver

CLEANING TABLE

PROBLEM 	SOLUTION 	SPECIAL CARE 
Dust, dirt, grease, coffee, tea, juice, food debris	Usual cleaning products without abrasive additives	
Lime, rust	Vinegar or citric acid (10%)	Warning! Do not leave it to act for too long. Repeat several times to remove tough stains.
Oil, wax, finger marks, felt tip pen, ballpoint pen, nicotine, rubber marks	Organic solvents, such as acetone or alcohol	
Adhesives, colourings, water-soluble paint	Hot water or organic solvents	Warning! Ensure good ventilation and comply with the regulations on accident prevention.
Adhesives, varnishes and solvent-based paint	Organic solvents, such as acetone or alcohol	
Silicone or sealants	Silicone remover or scraper	

WHY CHOOSE INNOVUS[®]?

- ✓ Extremely durable and versatile products
- ✓ Antibacterial properties
- ✓ Ease of cleaning and maintenance
- ✓ Resistant, hygienic and non-porous surfaces
- ✓ High resistance to stains and scratches
- ✓ Produced using recycled wood and wood from sustainable sources
- ✓ Carbon retention capacity
