PB P2 CARB2/TSCA

Particleboard for interior fitments and furniture for use in dry conditions

DESCRIPTION

Sonae Arauco PB P2 CARB2/TSCA is a particleboard with a fine sanded surface suitable for coating with melamine paper and veneer or laminate.

The board is suitable for furniture production being easy to mill. PB P2 CARB2/TSCA has low formaldehyde emission, is certified according to the rules of the official California Air Resource Board (CARB) and compliant with limit of ChemVerbotsV (E05).

Regarding reaction to fire and according to EN 13986, PB P2 CARB2/TSCA with a thickness ≥ 9 mm and a minimum density of 600 Kg/m³, is classified as D-s2, d0 (Euroclasses definition by EN 13501-1).

In addition to technical performance PB P2 CARB2/TSCA panels are sustainable and environmental friendly products.

For further information on available sizes and thicknesses, please see our Offer & Service Brochure.

APPLICATIONS

PB P2 CARB2/TSCA can be used in all industrial processing processes for interior decoration and furniture production.

Due its surface finishing versatility, PB P2 CARB2/TSCA can be used to manufacture residential and office furniture, and decorative solutions (see our Innovus decorative products collection).

PB P2 CARB2/TSCA must be applied in service class 1 (restrictions in temperature and ambient humidity).

RECOMMENDATIONS

Boards must be stacked on a hard, level surface and protected from direct contact with water. Expansion and contraction in wood products is directly related to moisture content and must be considered during design and construction.

Wood based panels are biodegradable and can be recycled, follow local regulation for the disposal of residues.
